

9.10.19

Dear Parents,

School trip

We had a great day at Tatton Hall yesterday. The children worked very hard, learning how to bake scones, polish silver, scrub floors, make beds and prepare fires. They are now well trained and ready to be put to work at home! I'll be adding some photos to our class webpage. Thank you for all the effort you put in to making sure they were appropriately dressed. The ladies who led the day were impressed with the children's costumes. Thank you also to our parent helpers who got involved and helped to make the day a success. We hope your children have told you all about the exciting activities that we did throughout the day.

Literacy

This week the children have been learning about different question starters. They wrote questions they would like to ask the staff at Tatton Park about being a Victorian servant. Today we have talked about our trip and planned what we are going to write about for the rest of the week.

Maths

In maths we have been adding a 1-digit number to a 2-digit number. We are moving onto adding two 2-digit numbers together. We have used number lines and we will be starting to learn column addition using apparatus to support us.

Homework

Spelling - Please allow your child to login to Spellingshed and practice the spellings we have set for them.

Maths - Children to write out all the multiples of 10 that make 100, e.g.
 $0+100=100$ $10+90=100$.

English - Children to write down five things they learnt from their trip to Tatton Park.

Many thanks for your continued support,
Mrs McBride
