

## Key skills

We know it isn't easy to work at home – reluctant children because the sun is shining; parents working at home; no computers; no printers. This situation is VERY unusual and we are not expecting your child to be learning as they would in school.

So we have put together this list for your year group to help you to keep things ticking over.

### Year 6:

Practise arithmetic questions either writing your own questions using pen & paper, using maths shed or the link: <https://myminimaths.co.uk/year-6-arithmetic-practice-paper-week-1/> (8 questions per day).

Read a book – or use [www.oxfordowl.co.uk](http://www.oxfordowl.co.uk)

Practise spellings from Year 5 & 6 Spelling list (paper or spelling shed)

Practise handwriting just copying anything down to practise sitting on the line, and joining letters neatly.
