

## Year 5 Home Learning Friday 27<sup>th</sup> March 2020

Today we would normally have a Celebration Assembly, perhaps you could gather your family together and share your experiences of your first week learning from home. Who deserves to be star of the week in your house? You could make them a certificate.

### Reading and Writing

Listen to Chapter 10 of Cogheart and answer some or all of the following questions (minimum of 5):

Chapter 10	
Vocabulary	Which phrase does Lily think is important from her dream? What's an urn? What phrase shows that Madame Verdigris has locked the door?
Infer	Why was Lily sweating with a dry throat? How did Lily know Madame had been in the study? What are Lily's feelings when she realises the mechs are being dragged into a vehicle? Why couldn't she run and save them? Why might the kitchen feel colder to Lily than usual? Who appears outside Lily's window?
Predict	Predict if and how Lily will escape.
Explain	Explain how Bunzl makes the character of Madame Verdigris unlikeable.
Retrieve	Where was the spare key to Lily's father's study? Whose urn is on the mantelpiece? How does Lily remember about the safe? What was the code to the safe? What was inside the safe?
Summarise	Summarise your impressions of Madame Verdigris in this chapter using ten words or less.
Writing Opportunity	Write what happens next – mostly a dialogue between Lily and Robert.

For your writing task today have a go at writing a dialogue between Lily and Robert as suggested above. Remember the rules for writing speech:

- Everything that is being said must be in inverted commas (speech marks)
- New speaker, new line
- Punctuation must be inside the inverted commas
- Direct speech must start with a capital letter
- Try to avoid repeating said – research and make a word bank of words you could use instead

### Spellings – Practice on spelling shed

## Maths

### Lesson 4 Understanding thousandths

If you have time have a go at **lesson 5** over the weekend. I am not sure if White Rose Maths will keep this week's lessons on or replace with new ones for next week. So, if you can please do lesson 5 - **thousandths as decimals** as well. <https://whiterosemaths.com/homelearning/year-5/>

The screenshot displays the White Rose Maths home learning interface. It features two lesson cards. The first card, titled 'Lesson 4 - Understand thousandths', includes a video player with a question: 'What fraction of the square has been shaded?'. The video shows a 10x10 grid with 100 small squares, where 10 squares are shaded. Below the video are two buttons: 'Get the Activity' (with a document icon) and 'Get the Answers' (with a document icon). The second card, titled 'Lesson 5 - Thousandths as decimals', shows a video player with a number line from 0 to 1, divided into tenths and hundredths. Below the video are two buttons: 'Get the Activity' and 'Get the Answers'. The interface is clean and user-friendly, with a white background and colorful accents.

### RE – Forgiveness takes Courage

See Power Point of the above name and work through. This is for today and next week's (Wednesday) RE lesson.

Have a lovely weekend, stay safe

Miss Broderick
