

Year 6 Newsletter 11th October

Important News:

Please ensure you have sent your consent and payment for our London trip and for our visit to the Chinese restaurant.

Over the last week, year 6 has continued to work hard on their brilliant stories of Titanium and they have begun learning all about long division.

Also this week, we have been discussing messaging our friends and using online chats. The children have thought about how they speak to each other and ways in which they can ensure they are safe.

Finally, Year 6 have also been thinking about ensuring that their conversations and actions are appropriate for around our school. We have had some which are inappropriate and not suitable for many of the young children in the school. Expectations have now been set and understood for all the year 6 children.

Homework:

Homework this week:

Spelling shed – please complete 5 games online

Maths shed – please practice key skills (particularly times tables and square numbers)

Read 4 times.

If you have any questions, please ask any of the Year 6 team.

Mrs Bancroft, Mrs Browne and Miss Barker.
